The charges that make up your power bill include our costs to supply power to your property. These include transmission (national grid) charges, local network distribution charges, wholesale energy charges and market fees, and Trustpower's retail costs.

Over the past year we have seen an increase in our costs and as a consequence our electricity charges for your property are increasing.

Trustpower's electricity prices for a typical Far North customer will increase by 2.5% on 13 March 2021. For a typical home this will be an approximate increase of 19 cents per day\*\*.

Pricing applies to customers connected to the Top Energy network.

\*\* Including GST and after 15% Prompt Payment Discount, if applicable. Based on a Trustpower Friends Domestic customer using 7,000 units per year on our All Inclusive pricing option.

**Note:** The Electricity Market Fee will continue to appear on your bill. This fee is not subject to any Prompt Payment Discount.
