The charges that make up your power bill include our costs to supply power to your property. These include transmission (national grid) charges, local network distribution charges, wholesale energy charges and market fees, and Trustpower's retail costs.

Trustpower's electricity prices for our typical Wellington customer will increase by 4.86% on 7 April 2021. For a typical home this will be an approximate increase of 36 cents per day**.

This price increase includes a 5.69% increase in charges from the distribution network owner Wellington Electricity. The increase in network charges accounts for 37.93% of the overall customer price increase. The balance of the total price increase is due to an increase in Trustpower's retail charges.

Pricing applies to customers connected to Wellington Electricity network.

** Including GST and after 15% prompt payment discount, if applicable. Based on a Trustpower Friends Domestic customer using 10,200 units per year on our All Inclusive pricing option.

Note: The Electricity Market Fee will continue to appear on your bill. This fee is not subject to any Prompt Payment Discount.
