

New Power Prices

West Coast

As a result of the electricity price review it has been recommended that Trustpower remove Prompt Payment Discount. We are doing this on a rolling basis, ensuring customers are no worse off on no Prompt Payment Discount plans. Please see below revised prices for our Prompt Payment Discount plans and also our new plans. These prices will apply to electricity used from 7 March 2021.

Prompt Payment Discount Pricing Options

* To get any Prompt Payment Discount you must pay the amount due for payment on your account, in full by the due date.

The charges that make up your power bill include our costs to supply power to your property. These include transmission (national grid) charges, local network distribution charges, wholesale energy charges and market fees, and Trustpower's retail costs.

Over the past year we have seen an increase in our costs and as a consequence our electricity charges for your property are increasing.

Trustpower's electricity prices for a typical West Coast customer will increase by 3.44% on 7 March 2021. For a typical home this will be an approximate increase of 23 cents per day**.

Pricing applies to customers connected to the Westpower network.

** Including GST and after 15% prompt payment discount, if applicable. Based on a Trustpower Friends Domestic customer using 5,863 units per year on our Controlled and 24 Hour pricing options.

Note: The Electricity Market Fee will continue to appear on your bill. This fee is not subject to any Prompt Payment Discount.
